12 January 2026 22:02

Google ads is an online advertising platform where businesses pay to show their adds on google search results ,youtube , website ,apps, (any thing you run as ad in google platform)

How google ads work example:
A bakery owner wants more customer he creates the ad they select some key words cake shop near by me , user search birthday cake near by me google shows ad bakery ad appears when user search the owner pays google.

Types of google ads
Search ads: text ads on google
Display ads: image ads on websites.
Video ads(youtube):before video starts
Shopping ads: product ads with price
App promotion ads: ads to install apps

Benefits of google ads
- Shows ad to right people
- Control budget
- Instant results
- Track clicks calls sales
- Works for small & big businesses
    - Most commonly used ads is google search ads search enging result page

Account structure google ads
1. Account
2. Compaingn
3. Ad group
4. Key words
5. Ads

- Account :
- Compaingn is way to define our goals of our strategy sales, clicks, conversions, views etc
- Ad groups are the part of our campaingns it can be used to test different products locations etc
- key words are the search query we want our ads to rank up
- Ads are the content that is visible to the search engine page

Google ads algorithm
Actions based on algorithm -->bidding is the key ,ad rank =maximum cost bid *Quality score
QUALITY SCORE =expected clicks through rate (clicks impression *100)+ ad relevance +landing page experience
Quality score -->start with 5 (bench marks)and changes--> algorithm effect
MAX bid *Quality score = ad rank -->(position)

Basic terms of google ads
Clicks:-->when someone clicks your ad
Impression : an impression is counted each time your ad is shown on a search result page or other site on google net work
CTR:(click through rate) it is how often people see your ad and click on the ad

A high CTR is a good indication that user finds your ads and listings helpful relavant
CTR=clicks/impressions*100
CPC (cost per click):it means how much can you pay to google for each click on your ads
CPC= total cost /total clicks

Campaign important settings

Campaign Name:
First, we give a proper name to our campaign so we can easily identify it in our account.
Example: "Shoes_Search_India"

Campaign Type:
Here we select what type of ads we want to run:

- Search ads
- Display ads
- Video ads
- Shopping ads
- App ads
- Based on business goal.

Networks:

- We choose where our ads should appear:
- Google Search Network
- Display Network Or both.

Locations:
We target specific places where we want to show ads.
Example: India, Bangalore, Chennai, etc.

Languages:
We select the language our audience speaks.
Example: English, Kannada, Hindi.

Bid Strategy:
Here we tell Google our goal:

- More clicks
- More conversions
- Lower cost per lead

Example: Manual CPC, Target CPA, Maximize conversions.

Budget:
We set daily budget.
Example: ₹500 per day.

Delivery Method:
We choose how fast our budget should be spent:

- Standard (spread throughout the day)
- Accelerated (spend faster).

Ad Schedule:
We decide days and time when ads should run.
Example: Monday to Friday, 9 AM – 6 PM.

Ad Extensions:
We add extra information to ads:

- Call button
- Location
- Site links

This improves ad performance.

Ad Rotation:
Google rotates different ads to see which one performs better.

Exclusions:
We block unwanted websites or sensitive content where we don't want our ads.

"So this campaign structure helps us control targeting, budget, and performance effectively."

Campaign Objectives Explanation

Sales:
We select this when our main goal is to sell products or services
Example: Online shopping website, course selling, etc.

Leads:
Used when we want customer details
Example: Phone number, email, form filling for inquiries.

Website Traffic:
When our goal is to bring more visitors to our website
Example: Blog, company website, portfolio.

App Promotion:
To increase app installs and engagement
Example: Food delivery app, learning app.

Awareness & Consideration:
To make people aware of our brand
Example: New company, new product launch.

Local Store Visits & Promotions:
For physical shops
Example: Restaurant, showroom, salon – bring customers to store.

Create campaign without a goal:
Used when we want full manual control
No Google recommendations.

"So first we select objective, then Google optimizes ads based on that goal."
Ad Group :An Ad Group is a smaller section inside a campaign where you organize
Rules for ad writing :
Head lines -15
Descriptions-4
Final URL-1
URL Path-2
Assets
Structure:

1. Account

2. Campaign
3. Ad Groups
4. Keywords & Ads

Why Ad Groups are Important

- Better relevance
- Higher Quality Score
- Lower CPC
- Better control

How to Create Ad Groups

i. Open Google Ads
ii. Select your campaign
iii. Click Ad Groups
iv. Click + New Ad Group
v. Name your ad group
vi. Add keywords
vii. Create ads

Keywords :Keywords are the words or phrases people type in Google search.
You add these keywords to your ads so that your ad shows when someone searches related terms
Example:
If you sell sports shoes, people may search:
"buy sports shoes"
"running shoes for men"
"best gym shoes"

Types of Keyword Match Types

1. Broad Match:Your ad shows for similar or related searches.
Keyword: shoes
Searches shown:
buy footwear
sports shoes for men
ladies sandals

2. Phrase Match :Your ad shows when the meaning of phrase is same.
Keyword: "sports shoes"
Searches shown:
buy sports shoes online
best sports shoes for men
Not shown for: shoes sports shop

3. Exact Match :Your ad shows for very close search.
Keyword: [sports shoes]
Searches shown:
sports shoes
sports shoe
Not shown for: buy sports shoes online

Negative Keywords: These block unwanted searches.
Example:You sell new shoes only
Add negative keyword:
free
second hand
cheap
So your ad won't show for:
free shoes
second hand shoes

Keyword Planner? Keyword Planner is a free tool inside Google Ads used to:
Find new keywords
Check search volume
Know competition
Estimate ad cost (CPC)

How to Open Keyword Planner
Go to ads.google.com

Login to your account
Click Tools & Settings
Under Planning → Click Keyword Planner

Example
Business: Beauty Parlour

Search:
"beauty parlour near me"
"bridal makeup"
"hair spa price"

Quality Score: Quality Score is a rating (1 to 10) Google gives to your keyword based on:
Ad relevance
Landing page experience
Expected CTR (click-through rate)

Higher score = Lower cost + Better ad position

Quality Score Components

1) Expected CTR : Chances people will click your ad

- Good CTR: Ad text matches search intent
- Bad CTR: Ad not attractive

2) Ad Relevance: How closely your ad matches the keyword

Keyword: "buy sports shoes"
- Good ad: Buy Sports Shoes Online – 50% Off
- Bad ad: Clothing Store Sale

3) Landing Page Experience: How useful your website is

- Fast loading

- Mobile friendly
- Relevant content
- Easy navigation

Quality Score Scale

Score	Meaning
1–3	Poor
4–6	Average
7–10	Excellent

Why Quality Score is Important

- Lower CPC (cost per click)
- Higher ad rank
- More impressions
- Better ROI

Example

Business: Online Coaching
Keyword: "ssc coaching online"
Ad: Best SSC Online Coaching – Join Today
Landing Page: SSC course details page

Quality Score: 8/10 (Good match)

How to Improve Quality Score

Add keyword in ad headline
Use proper landing page
Improve page speed
Add extensions
Remove poor keywords
Use tight ad group

What is Ad Rank? Ad Rank decides: Your ad position (1st, 2nd, 3rd…)Whether your ad will show or not
Google calculates Ad Rank every time someone searches.

Ad Rank Formula

Ad Rank = Bid × Quality Score × Ad Extensions impact

Ad Rank Factors

- Bid Amount: How much you are ready to pay per click

Higher bid = better chance
But not enough alone

- Quality Score :Relevance & experience score (1–10)

Higher QS =
Lower CPC
Higher position

- Ad Extensions: Extra info in ad(Call, sitelink, location)

Good extensions =

Higher CTR
Higher Ad Rank

average cost per click (CPC) : A key metric in pay-per-click advertising that tells you how much you pay **each time someone clicks your ad**

Average CPC=Total Clicks/Total Ad Cost

Conversions:

A conversion happens when a user completes a desired action after clicking your ad (e.g., purchase, form fill, call, app install).

Example:

A job portal runs Google Search Ads to get **job seeker sign-ups**.

- Impressions: 10,000
- Clicks: 400
- Conversions (Registrations): 40
- Total Cost: ₹8,000

Search terms: the words or pharses that people type in to google or other search network sites to search for information

Cost per Conversions :

Cost per Conversion tells you **how much you spend to get one successful action** (like a sign-up, purchase, or application).

Cost Per Conversion = total cost /total conversions

Conversion Rate :

Conversion Rate shows **what percentage of users who clicked your ad completed a desired action** (e.g., sign-up, purchase, form fill)

Conversion rate = no of conversions/no of clicks*100

Negative Keyword:

Negative keywords are words or phrases you add to your Google Ads campaign to **prevent your ads from showing for irrelevant searches**.

Why Negative Keywords Are Important

- Avoid **wasting money**
- Improve **ad relevance**
- Increase **conversion rate**
- Lower **cost per click**

How to write ad copy

- **Final URL --> landing page URL when user clicks open the web site**
- **Display path --> rendering from different pages from the web site**
- **Headlines --> it contain 15 head lines ,Minimum 3 headlines are mandatory, Each headline can be maximum 30 characters.**
- **Description --> You can write up to 4 descriptions, Minimum 2 descriptions are mandatory Maximum 4 descriptions allowed,** Each description can be **up to 90 characters**

Search Impression Share: it shows **how often your ad appeared compared to how often it *could* have appeared** on Google Search.

SIS =(your impression /eligible impression)*100

How to Create a Google Ads Account

- Go to **ads.google.com**
- Click **Start now**
- Use your **Gmail ID**
- If you don't have one, create a Gmail account first
- Choose your goal
- Create Your First Campaign
- Set Billing Information
- Add Payment Method

- Account Created Successfully
  Google search network : the google search network is a group of search related website and where your ads can appear
  Google display network : it is a collection of website, videos and apps where you can place your google ads
